

Shadow Accord Rituals List for Players

(Note: This list is made available to all players only for OOG purposes. You may not take full knowledge of every ritual in this list as IG knowledge. You may only take into game knowledge of rituals you meet the required Lore for. This list is expected to change in the future. Players will NOT be able to refund/return any of these rituals should they be crafted or obtained in-game unless the Rules team decides to make the ritual in question no longer castable by PCs.)

Potency and Knowledge

Rarity (Common, Uncommon, and Rare) will no longer exist as a way to rank Rituals. Instead they will be rated on two scales: Potency, and Knowledge.

Potency

Potency is used as a guideline for how powerful a ritual should be. Potency maps 1:1 with the level of Ritual skill needed. This is meant as a way for someone to see the ritual and get an idea of the mechanical value of the Ritual.

If a ritual is Legendary, its power is difficult to determine. It is functionally unable to be cast by PCs. NPCs who meet all other casting requirements (including having Rituals 3) need the (Legendary) Ritual Master power to cast it.

Options: Simple, Complex, Expert, Legendary

Our intent is to make NPC-Only rituals uncopyable so that ST can always control how many are in-game.

- Simple (1): Easy to perform (brand-new PCs); casting produces simple effects
- Complex (2): Moderately difficult to perform; casting produces powerful one-time effects or simple longer-lasting effects
- Expert (3): Quite difficult to perform; casting can produce powerful long-term or permanent effects
- Legendary (NPC Only): Impossible for PCs to perform; used to create plots

Knowledge

Knowledge is meant to represent a sociological aspect for people to know how the group(s) that control access to a ritual would respond if they found out someone has learned of or acquired one of their tools. Characters might get pestered or targeted by people of *other subfactions*, whether or not they're part of a subfaction that also controls the ritual. (This is in relation to

rituals that are protected by multiple subfactions; Vampire seems most likely to have these, but Shifter may as well).

Public

Well known. This may have been a secret at one point, but it no longer is, or it is now an open secret. Not specific to any subfaction; accessible to all in the faction.

Qualities

- Well-known
- You should not be targeted by ST for having this
- **Faction Lore** lets you know the mechanics IG

Guarded

Well known but access is often controlled. Ritual is considered dangerous, important, or a hallmark of an organization. Subfactions would be disappointed if it were to get in the hands of non-subfaction.

Qualities

- Must be assigned to one or more subfactions
- Well-known but access is controlled (dangerous, powerful, important)
- Members of the subfaction(s) who control this ritual will view you with suspicion if you are not of the same subfaction
- If you have this, you may be pestered by NPCs of other subfactions who control this ritual if they find out
- **Faction Lore** lets you know it exists and take its summary IG
- **Subfaction Lore** lets you know the mechanics IG

Secret

Knowledge of said ritual is kept close to the chest of subfaction members. One should not be caught spreading information about said ritual. Those who do learn of it are expected to say nothing about it. The subfaction may take drastic and extreme action against those who spread it. If it got into the hands of a non-subfaction member, the holder should expect to be targeted.

Qualities

- Must be assigned to one or more subfactions
- Not well-known outside of subfaction (intentionally kept a secret)
- Members of the subfaction(s) who control this ritual will view you as a transgressor if you are not of the same subfaction
- If you have this, you may be targeted by NPCs of other subfactions who control this ritual if they find out

- **Subfaction Lore** lets you know it exists and take its summary IG
- **Being a member of the subfaction** lets you know the mechanics IG

Cryptic

Super secret even among subfactions. Owning a copy is seen as being "in the know". If a non-faction or subfaction member is caught with the ritual, expect them to disappear. Violently. If a PC gets these they would be intended to be a big reward for a story, a prop element, or a big prize to hide. Impossible to create without ST interaction.

Qualities

- Not well-known even within a subfaction
- If you have this, expect to be targeted
- **Only hearing about the ritual** in-game lets you know it exists
- **Only seeing the ritual** in-game lets you know the mechanics IG

Knowledge of the terms in a Vitae Contract may never be removed from character knowledge by any means. A Vitae Contract will expire after one year, but may be extended by having the caster and each target sign and date

the back of the original document in red ink between sunset and sunrise on the same night. The expiration will be extended by one year each time this is done.

Additional Notes: The caster should provide a copy of the contract to each target as soon as possible, preferably at signing.
