

Shadow Accord Rituals List for Players

(Note: This list is made available to all players only for OOG purposes. You may not take full knowledge of every ritual in this list as IG knowledge. You may only take into game knowledge of rituals you meet the required Lore for. This list is expected to change in the future. Players will NOT be able to refund/return any of these rituals should they be crafted or obtained in-game unless the Rules team decides to make the ritual in question no longer castable by PCs.)

Potency and Knowledge

Rarity (Common, Uncommon, and Rare) will no longer exist as a way to rank Rituals. Instead they will be rated on two scales: Potency, and Knowledge.

Potency

Potency is used as a guideline for how powerful a ritual should be. Potency maps 1:1 with the level of Ritual skill needed. This is meant as a way for someone to see the ritual and get an idea of the mechanical value of the Ritual.

If a ritual is Legendary, its power is difficult to determine. It is functionally unable to be cast by PCs. NPCs who meet all other casting requirements (including having Rituals 3) need the (Legendary) Ritual Master power to cast it.

Options: Simple, Complex, Expert, Legendary

Our intent is to make NPC-Only rituals uncopyable so that ST can always control how many are in-game.

- Simple (1): Easy to perform (brand-new PCs); casting produces simple effects
- Complex (2): Moderately difficult to perform; casting produces powerful one-time effects or simple longer-lasting effects
- Expert (3): Quite difficult to perform; casting can produce powerful long-term or permanent effects
- Legendary (NPC Only): Impossible for PCs to perform; used to create plots

Knowledge

Knowledge is meant to represent a sociological aspect for people to know how the group(s) that control access to a ritual would respond if they found out someone has learned of or acquired one of their tools. Characters might get pestered or targeted by people of *other subfactions*, whether or not they're part of a subfaction that also controls the ritual. (This is in relation to

rituals that are protected by multiple subfactions; Vampire seems most likely to have these, but Shifter may as well).

Public

Well known. This may have been a secret at one point, but it no longer is, or it is now an open secret. Not specific to any subfaction; accessible to all in the faction.

Qualities

- Well-known
- You should not be targeted by ST for having this
- **Faction Lore** lets you know the mechanics IG

Guarded

Well known but access is often controlled. Ritual is considered dangerous, important, or a hallmark of an organization. Subfactions would be disappointed if it were to get in the hands of non-subfaction.

Qualities

- Must be assigned to one or more subfactions
- Well-known but access is controlled (dangerous, powerful, important)
- Members of the subfaction(s) who control this ritual will view you with suspicion if you are not of the same subfaction
- If you have this, you may be pestered by NPCs of other subfactions who control this ritual if they find out
- **Faction Lore** lets you know it exists and take its summary IG
- **Subfaction Lore** lets you know the mechanics IG

Secret

Knowledge of said ritual is kept close to the chest of subfaction members. One should not be caught spreading information about said ritual. Those who do learn of it are expected to say nothing about it. The subfaction may take drastic and extreme action against those who spread it. If it got into the hands of a non-subfaction member, the holder should expect to be targeted.

Qualities

- Must be assigned to one or more subfactions
- Not well-known outside of subfaction (intentionally kept a secret)
- Members of the subfaction(s) who control this ritual will view you as a transgressor if you are not of the same subfaction
- If you have this, you may be targeted by NPCs of other subfactions who control this ritual if they find out

- **Subfaction Lore** lets you know it exists and take its summary IG
- **Being a member of the subfaction** lets you know the mechanics IG

Cryptic

Super secret even among subfactions. Owning a copy is seen as being "in the know". If a non-faction or subfaction member is caught with the ritual, expect them to disappear. Violently. If a PC gets these they would be intended to be a big reward for a story, a prop element, or a big prize to hide. Impossible to create without ST interaction.

Qualities

- Not well-known even within a subfaction
- If you have this, expect to be targeted
- **Only hearing about the ritual** in-game lets you know it exists
- **Only seeing the ritual** in-game lets you know the mechanics IG

Conscript

Type: Arcanos Transformation

Casting Requirements: Rituals 2, Academics 1, Lifeweb 2, Mnemosynis 3

Faction Locked: Yes

Storyteller Instructions: Have the two players complete any necessary task for interacting with ST while their characters leave town to visit the local seat of Stygian authority. 4. State "The <Legion Lord or Lady Name> of the <desired Legion> claims you." Then say "OOG: Do you accept?"
5. If they Accept move to the Effect. If not, move to Contested Wills.

Contested Wills:

1. If the target Refuses, they must either spend 1 Willpower, or become Tainted and gain 1 Angst to call "Resist".
2. The caster may choose to either let the ritual fail or press the claim by repeating Step 4. They must spend 1 additional Willpower to press the claim (they cannot gain Angst to do so).
3. The target may Accept or Refuse, repeating the Contested Wills instructions until either the target Accepts, the caster allows the ritual to fail, or the ritual is interrupted.

Sheet Changes: Remove a Legion, Renegade, or Heretic subfaction and add the subfaction Legion of the caster.

Effect: Changes the target's Legion subfaction. You can only bestow the Legion on your character sheet unless you are of the Emerald Legion, in which case you can bestow any Legion except the Legion of Fate. You and the target must go to ST Camp to change their character sheet.

Additional Notes: The target can become a Specter from this interaction. It is up to the caster to gauge whether to continue pushing. This is sometimes seen as agitating the shadow of another Wraith and can lead to the caster being found guilty of violating the laws of Stygia.

Knowledge: Guarded

Lore: Mnemoi Guild

Casting Requirements: Rituals 2, Mnemosynis 2

Check-in Instructions: Issue one **Memory Fragment** tag. If the character has the Mnemoi Guild subfaction, issue two tags instead. A character may only receive tag(s) for one copy of this ritual regardless of how many they have.

Summary: Extract a memory and calcify it into a physical crystal which can be used to gain the memory.

Cost: 2 Energy

Components: A Crystal or Gemstone prop (3"+), a 3x5" Index Card, target character (can be the caster)

Instructions:

1. Roleplay gathering a memory from the target for at least 60 seconds.

3. You may read the notecard. Then fold it so the text is not visible and attach it to the crystal.

5. Incant "Let these memories flow from you, as if they had never been" in a language of your choice.

7. Say "Create Memory Fragment".

Effect: The memory on the notecard is removed from the target's character knowledge. It can be broad as a description of their childhood or limited as "I had eggs for breakfast." Lores and skills may not be removed, but the target could be made to forget how they learned such things. Further encounters with subjects in the description will form new memories as normal.

Place as much description as is necessary for others to understand the memories contained in the memory crystal, in case you are not present when it is given to another.

Using Memory Fragments:

To use a fragment a character must have a copy of this ritual and be able to cast it. They must cast the ritual using the following steps instead:

1. Hold the **Memory Fragment** to target character's head (can be the caster).
2. Roleplay pushing the crystal into the target (do not cause discomfort).
3. Incant "Let these memories flow into you, as if they had always been" in a language of your choice.
4. Pay the casting Cost.
5. Say "Bestow Memory".

Effect: Destroy the Memory Fragment tag. The target reads the notecard left with the memory crystal and gains those memories. If these memories were originally the target's, the memory is restored fully. If the memories belonged to someone else, they are incorporated as if the target always had them.

They cannot purchase a second dot in the Skill or Arcanos learned at the same Check-In.

- 2. Incant "The Skeletal Lord calls and blesses you with his gifts." in a language of your choice.
- 3. Pay the casting cost
- 4. Say "If you are Realmbound, Unresistable Condition: Festering Rot" and give the target a **Festering Rot** tag. This does not require a Breach call even if you and target are in different Realms.

Effect: The target is affected by the **Festering Rot** condition. They must roleplay suffering from a terrible malady or illness until the condition is removed. While afflicted, they are affected by Wither, except it does not count as a Status (new Statuses do not remove this, nor do effects that end Statuses). They cannot run, cannot use the Resistance power, cannot Regenerate, and cannot use the Hardy merit.

If the character dies and returns as a Wraith, they are claimed by and gain the Skeletal Legion subfaction. If they are claimed by multiple legions, the player may pick from among them. Legions are known to fight over a character whose soul has markings of multiple legions.

Unlike most Conditions, this **persists between events** if not removed.

Duration: Until the condition is removed.

Knowledge: Secret

Lore: Grim Legion

Casting Requirements: Rituals 3, Embody 3, Lifeweb 1, Outrage 2

Faction Locked: Yes

Summary: Give a Wraith one last chance to hunt down and kill their murderer.

Cost: 1 Willpower, 3 Energy

5. Have the target name any number of non-Wraith characters who were in some way responsible for their death as Nemeses. The ritual fails if no one is named.

Drawback: When the duration ends, the target gains 1 Angst for every Nemesis who the target did not directly put in the Dead state. No matter the outcome, the target can never receive the effect of this ritual again.

Duration: Until the end of the event or until every Nemesis dies (whichever happens first).

Effect:

The target can treat any Nemesis as a Fetter if it benefits them and ignore any downsides this might cause.

They gain and can use Materialize at no cost. They gain and can use Decay at no cost on Nemeses.

When calling damage (except from Decay) against a Nemesis, they increase it by 1 (not to exceed 10).

When the duration ends, they must go to ST camp and report how their vengeance went. For every Nemesis they directly put in the Dead state, their Angst is lowered by 1 (to a minimum of 1). This stacks with the Drawback above.

Design: Memory Crystal

Type: Arcanos Design

Potency: Expert (3)

Knowledge: Cryptic

Lore: Mnemoi Guild

Casting Requirements: Rituals 3, Mnemosynis 3

Faction Locked: No

Check-In Instructions: Issue one **Memory Crystal** tag if the player spends 3 XP. A character may only receive a tag for one copy of this ritual regardless of how many they have.

Summary: Duplicate knowledge and calcify it into a physical crystal which can be used to teach from.

Cost: 5 Energy (in game), 3 XP (at Check-In)

Components: A Crystal or Gemstone prop (3+"), 3x5" Index Card, target willing Character (can be the caster)

Instructions:

1. Roleplay gathering a memory from the target for at least 60 uninterrupted seconds. They must be in the same realm as you.

4. Incant "Let knowledge flow through you, so it may be shared with another" in a language of your choice.
5. Pay the energy cost.
6. Say "Create Memory Crystal".

Effect: The skill, power, or Lore is stored in the crystal, which becomes a **Memory Crystal**. It is a Relic which allows anyone who finds the prop to spend 60 seconds uninterrupted and 1 Energy to read what knowledge is contained within (though it does not give them any special understanding of this topic, including what its name even means).

If a character brings a **Memory Crystal** to Check-In, they may spend XP to learn the skill or power inside as if it had been taught to them, or the Lore inside as if they were creating a new character. This does not count against the number of skills or powers a character can purchase at Check-In, though they cannot purchase a second dot in a skill or power tree learned with a **Memory Crystal** at the same Check-In. They follow all other rules for learning (e.g. they must be able to be normally taught the skill or power contained).

Using a **Memory Crystal** at Check-In destroys it.
